

PINEVIEW RESERVOIR PIPELINE CROSSING INSTALLATION

WORK BEGINS MONDAY, SEPTEMBER 14, 2026

Beginning Monday, September 14, crews will install a pipeline crossing at Pineview Reservoir. Expect increased truck traffic and intermittent noise during daylight hours as materials are hauled in and unloaded at the marked drop-off locations (★). Reservoir water levels will be lowered ahead of schedule to allow crew access.

EXPECTED SCHEDULE

Mid-September 2026 – Mid-October 2026

DAY WORK ONLY

Crews will build a temporary road across the reservoir to prepare for the pipeline replacement.

Mid-October 2026 – Late-November 2026

DAY + NIGHT WORK

Pipeline installation.

Early-December 2026 – Early-January 2027

NIGHT + DAY WORK

Crews will connect the new pipeline to the existing system.

Early-January 2027 – February 2027

DAY WORK ONLY

Restoration work, including reestablishing the lakebed to its original elevation.

EXPECTED COMPLETION

February 2027
